

PRODUCT SPECIFICATION

REF 1921 BREATHING MASK IN PLASTIC ZIP BAG

1 GENERAL PRODUCT DESCRIPTION

Description

A breathing mask that consists of a one-way valve (green upper part, red lower part and a membrane) and a plastic sheet with graphic instructions printed on it. The Breathing mask is packed in a plastic zip bag.

The device is intended to be used as an aid of assistance when giving mouth-to-mouth resuscitation to an injured person. The device is also intended to work as a barrier and limit the contact between the resuscitator and the injured person's blood, secrete, vomit and other body fluids.

CE-labelled.

Storage information

Dry storage in room temperature. For maximum protection, keep in original package until use.
